

# FY 2019 UNM NSF CAREER COHORT

Introductory Meeting

October 9, 2018

# CAREER Proposal Timeline

Time Frame	Task
D – 12 months	Start making outreach connections if part of your proposal
D – 9 months	Identify and make contact with your NSF program officer. Consider sending them a white paper if appropriate.
D – 6 months	Select expert readers to advise on proposal (Internal & External)
D – 2 months	<ul style="list-style-type: none"><li>• Talk to your chair about required resources you'll need to include in department letter</li><li>• Share a rough draft with readers (non-expert &amp; expert)</li><li>• Start working with department FRSO or administrator to develop proposal</li></ul>
D – 5 weeks	Polished draft to readers (non-expert & expert)
D – 3 weeks	Chair should have your draft proposal including their department letter and your CV
D – 2 weeks	Proofreading of proposal by readers (non-expert)
D – 5 days	Route your proposal with final budget and other non-technical pieces + drafts of technical pieces
D – 2 days	OSP should have your final proposal for their review
<b>Due Date</b>	NSF has your proposal

**Why are we here?**

# Goals of the Cohort

- ◎ Simplify grant writing process into manageable chunks
  - Education Plan
  - Broader Impacts
  - Introduction
- ◎ Alleviate the pressure of maintaining a deadline
- ◎ Develop a peer support network

# CAREER Cohort Overview

FRDO Led Workshop Format	
October 2018	Introductory Meeting
November 2018	Broader Impacts Workshop
December 2018	Building your Dream Budget
January 2019 (2 sessions)	Developing Administrative Documents
Writers Workshop Peer Review Format	
February & March 2019 (4 sessions)	Designing your Education Plan
April 2019 (2 sessions)	Developing your Broader Impacts Plan
May 2019 (2 sessions)	Bring it Together – the Introduction

# Is it your time to submit?

- ⦿ Tenure track assistant professor
- ⦿ Untenured prior to October 1, 2019
- ⦿ 3 submissions limit – regardless of institution
- ⦿ Not a training grant
- ⦿ Tool to help early investigators build a firm foundation for a lifetime of contributions to **research, education, and their integration.**

# Register with Research.gov

- ◎ <https://www.research.gov/accountmgmt/#/registration>
  - NSF ID associated with UNM
  - UNM DUNS number - 868853094

# Get Started

**Make contact with your  
NSF Program Officer**

**Establish your Broader  
Impacts partnerships**

# Identify Proposal Readers

**Expert Reviewers**

**Non-Expert Reviewers**

# CAREER Cohort Schedule

<b>FRDO Led Workshop Format</b>	
October 9, 2018	Introductory Meeting
November 13, 2018	Broader Impacts Workshop
December 11, 2018	Building your Dream Budget
January 15, 2019	Personnel Documents – Biosketch, Current and Pending, Collaborators and Other Affiliates
January 29, 2019	Data Management Plan, Facilities & Equipment, Bibliographies
<b>Writers Workshop Peer Review Format</b>	
<b>February &amp; March 2019</b>	<b>Designing your Education Plan</b>
February 12, 2019	Develop (What makes the most sense for you?)
February 26, 2019	Build an Appropriate Evaluation Plan
March 5, 2019	Integrate it with your Research Plan
March 19, 2019	Integrate it with Goals of Dept. and UNM in the Letter from your Chair
<b>April 2019</b>	<b>Developing your Broader Impacts Plan</b>
April 9, 2019	Identifying the Right BI for you as the PI
April 23, 2019	Building a Plan within your Budget
<b>May 2019</b>	<b>Bring it Together - Best Introduction Yet</b>
May 7, 2019	Grab the Reviewers Attention
May 21, 2019	Prepare them to be Amazed

# AGENDA

**What are Broader Impacts?**

**Establishing your Broader Impacts Identity**

**How to be a Realistic Planner**

**Tools Available Online**

**Campus Resources**

# WHAT ARE BROADER IMPACTS (BI)?

- Also referred to as Outreach Efforts
- The potential of a sponsored project to benefit society and contribute to the achievement of specific, desired societal outcomes

# BROADER IMPACTS GOALS OF THE NSF

- Full participation of women, persons with disabilities, and underrepresented minorities in science, technology, engineering, and mathematics (STEM)
- Improved STEM education and educator development at any level
- Increased public scientific literacy and public engagement with science and technology
- Improved well-being of individuals in society
- Development of a diverse, globally competitive STEM workforce
- Increased partnerships between academia, industry, and others
- Improved national security
- Increased economic competitiveness of the U.S.
- Enhanced infrastructure for research and education

# WHEN THE RESEARCH IS THE BROADER IMPACT...

## Structural Evolution Through the Lifecycle of Hurricane Sandy (2012) AGS 1322532

- Operational models of weather systems, storm forecasting and resilience planning

## CAREER: Architectural Support for CPU / GPU Hybridization CCF 1149539

- Broad potential to improve energy efficiency and battery life and to advance fields that rely on HPC

# WHEN THE BROADER IMPACTS ARE *DIRECTLY RELATED* TO RESEARCH PROJECT...

**The LIFE Center: Learning in Informal and Formal Environments**

**SMA 0835854**

- PI collaborates with organizations and policymakers to develop science-based programs that help children maximize their ability to learn.

**CAREER: Rationally Designed Conjugated Polymers Based on Benzobisazoles**

**DMR 0846607**

- Interdisciplinary research experiences for undergrad and graduate students and chemistry ambassadors which target underrepresented students grades 8-12.

# WHEN THE BROADER IMPACTS ARE SUPPORTED BY, YET COMPLEMENTARY TO THE RESEARCH PROJECT...

**Computational Behavioral Science:  
Modeling, Analysis, and Visualization of  
Social and Communicative Behavior  
IIS 1029679**

- Museum exhibit that integrated computer vision tools developed through this project with robotics tools from another Expedition

**Energize New Mexico  
IIA 1301346**

- The NM EPSCoR project supports an array of outreach and education efforts designed to share the research developed by the project with stakeholders and the broader community.

# WHAT IS YOUR BROADER IMPACTS IDENTITY?

# HOW TO PLAN REALISTICALLY...

1. Follow the Solicitation
2. Identify a Target Audience
3. Set a Goal for that Audience
4. Develop Appropriate Partnerships
5. Budget Accordingly
6. Include an Evaluation Plan

# IDENTIFYING A TARGET AUDIENCE

- Realistically applicable to your proposed project goals
- Fits your personality and qualifications
- Effectively accounts for time, budget, and people constraints

# SETTING A GOAL FOR YOUR TARGET AUDIENCE

- Timeline to the Future
- How many people, industries, government agencies, etc. will be affected?
- Do you need to include learning standards?

# BUDGET RESOURCES ACCORDINGLY

## MONEY & GOODS

- Is it included in the proposed budget?
- Is it participant support?
- Is it unfunded collaboration?
- Are you using resources already available at your home or collaborative institution?
- How much will an evaluator cost?

## PEOPLE

- Do you have enough people?
- Are they qualified to conduct the proposed activities?
- Do you need to hire a consultant?
- Do you have the right contacts?
- How do you start the conversation to develop a broader impacts relationship?

## TIME

- How long will your broader impact take?
- Does it need to happen during a certain time to meet the goals?
- Do you or your target audience need to travel?
- Is this feasible to both your schedules?

### Tools for Preparing your Broader Impact

- [Developing a Broader Impacts Plan](#)
- [NABI Broader Impacts Guiding Principles and Questions for NSF Proposals](#)
- [NSF Merit Review Broader Impacts Criterion: Representative Activities](#)
- [Journal of STEM Outreach](#)
  - Journal for researchers who develop and implement programs connecting formal and informal educators with STEM professionals.

### Examples of Broader Impacts

- Publications with undergraduate or minority student authors
- Community or workforce engagement
- K-12 education and outreach
- Undergraduate research experience
- Industry engagement
- Instances of improving societal well-being or public awareness
- Transformative discovery
- Data sharing

## UNM BROADER IMPACTS

The National Science Foundation (NSF) describes Broader Impacts as being the potential of a research project to benefit society and contribute to the achievement of specific, desired societal outcomes. Per the NSF, broader impacts may be accomplished **through the research itself, through activities directly related to specific research projects, or through activities supported by, yet complementary to the project.** Even though the NSF is the only sponsor that specifically names Broader Impacts as an evaluation measure, this desire to improve the world around us through research and other externally funded endeavors is common to most funding opportunities. As a result, the OVPR and FRDO would like to offer their assistance to faculty looking to develop broader impacts strategies to include in their proposals. Use the button below to request support.

### NSF Perspectives on Broader Impacts

NSF values the advancement of scientific knowledge and activities that contribute to the achievement of societally relevant outcomes. Such outcomes include, but are not limited to:

- Full participation of women, persons with disabilities, and underrepresented minorities in science, technology, engineering, and mathematics (STEM)
- Improved STEM education and educator development at any level
- Increased public scientific literacy and public engagement with science and technology
- Improved well-being of individuals in society
- Development of a diverse, globally competitive STEM workforce
- Increased partnerships between academia, industry, and others
- Improved national security
- Increased economic competitiveness of the US
- Enhanced infrastructure for research and education

Each year, the National Science Foundation (NSF) receives about 50,000 proposals for funding. Because there are many more worthy proposals than NSF is able to fund, the foundation distinguishes among them through a merit review process that incorporates two criteria: intellectual merit and broader impacts. **Read about more broader impacts examples from the NSF here.**

## NM STEM Connection

Managed by the UNM STEM-H Center for Outreach, Research and Education with support from the NM Experimental Program to Stimulate Competitive Research (NM EPSCoR), the NM STEM Connection provides information about STEM resources for **K-12 students, teachers, parents, counselors, and administrators** as well as **higher education faculty/staff and community members** in New Mexico.

## UNM STEM University

STEM University is a collection of **free** outside-of-class activities related to science, technology, engineering and mathematics disciplines (STEM) put on by the STEM Collaboration Center. These events connect UNM students with STEM research, scientists, technology and leadership. Faculty can post STEM events by following this **link**. Click **here** to access the current list of STEM University events.

## UNM Outreach Organizations

Organizations on campus devoted to the recruitment, retention, and education of students from minority and underrepresented groups.

**African American Student Services**  
**American Indian Student Services**  
**El Centro de la Raza**  
**Native Americans in STEM (NASTEM)**  
**Project for NM Graduates of Color**  
**Ronald E. McNair Scholars Program**  
**Student Support Services**  
**UNM Division of Equity and Inclusion**

## Mission: Graduate

Mission: Graduate is a partnership that brings together educators, employers, educational support providers, government leaders, and citizens to design collaborative projects and align organizational practice and policy toward achieving **common goals**. They seek partners with interest, experience, & expertise needed to successfully realize their **seven core outcomes**.

## Girls in STEM Groups

These New Mexico groups are devoted to engaging primarily K-12 girls in STEM. The NM Girls Connection Programs and NM Out-of-School Time Network links includes an assortment of programs.

**NM Girls Connection Programs**  
**NM Out-of-School Time Network**  
**Girl Scouts of New Mexico Trails**  
**Expanding Your Horizon (EYH) ABQ**  
**STEM Santa Fe**

## Industries in NM

Industry collaborations are positive outcomes of some broader impacts. Below are links to some industries in New Mexico already working to improve STEM education and may be productive partners in your proposal.

**Key Albuquerque Industries**  
**Boeing**  
**Honeywell**  
**Intel**  
**Northrop Grumman**  
**Raytheon**

## UNM College Based Outreach

A number of schools and colleges at UNM offer outreach opportunities. These are excellent places to begin your own outreach effort, either as an example to follow or as a collaborative partner. Check out the links to their outreach pages below.

**College of Arts & Sciences**  
**College of Education**  
**College of Fine Arts**  
**School of Architecture & Planning**  
**School of Engineering**

## New Mexico EPSCoR

One mission is to cultivate a well-qualified and diverse Science, Technology, Engineering and Mathematics (STEM) workforce and develop a strong culture of innovation and entrepreneurship. Through collaborations with organizations ranging from afterschool programs to colleges and universities, from museums to business startup accelerators, NM EPSCoR Education and Outreach programs serve a wide range of audiences across the state.

## Government Labs in NM

Military and National Labs in New Mexico participate in a variety of outreach efforts. Some of them may provide examples to follow while others will include opportunities for partnerships. Check out the links to their outreach pages below.

**Air Force Research Lab**  
**Los Alamos National Laboratory**  
**Sandia National Laboratories**

## Research Data Support

Effective open source software and data sharing can be incorporated into **broader impacts**. The Research Data Services provides a variety of services in support of effective research data planning, management, preservation, discovery and use. In addition, the RDS team also provides support for several key research data infrastructure capabilities that are maintained by the Library for use by UNM's research community.

## CSTA New Mexico

The Computer Science Teachers Association (CSTA) supports and promotes the teaching of computer science. CSTA provides opportunities for K-12 teachers and their students to better understand computer science and to more successfully prepare themselves to teach and learn. The NM chapter offers a ways to get involved with CS teachers helping to shape CS education in New Mexico.

## Albuquerque Museums

Below are links to contact information for local museums. UNM has a Broader Impacts Design partnership with the Explora Science Center. **Anthony Salvagno** is our direct contact there.

**Albuquerque Museum**  
**iExplora!**  
**Indian Pueblo Cultural Center**  
**International Balloon Museum**  
**Museum of Nuclear Science & History**  
**NM Natural History Museum**

- ▶ Start getting equipment quotes and/or facility use rates
- ▶ Develop hypothetical travel plans
- ▶ Start finding out what supplies, travel, and participant support your education and outreach efforts will need
- ▶ Develop your evaluation plan or get quotes from external evaluators
  - ▶ Keep in mind that the NSF says, “Meaningful assessment and evaluation of NSF funded projects should be based on appropriate metrics... If the size of the activity is limited, evaluation of that activity in isolation is not likely to be meaningful. Thus, assessing the effectiveness of these activities may best be done at a higher, more aggregated, level than the individual project.”
