Subject: Limited Competition: Camille Dreyfus Teacher-Scholar Awards Program

Date: November 9, 2015

The Camille Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences. The program provides discretionary funding to faculty at an early stage in their careers. Criteria for selection include an independent body of scholarship attained in the early years of their appointment (see below), and a demonstrated commitment to education, signaling the promise of continuing outstanding contributions to both research and teaching. The Camille Dreyfus Teacher-Scholar Awards Program is open to the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Nominees must hold a full-time tenure-track academic appointment, and are normally expected to have been appointed no earlier than mid-year 2010. Scholarly research is a principal activity. Undergraduate education is an important component as well. Renominations are accepted.

The Award provides a \$75,000 unrestricted research grant. Of the total amount, \$7,500 is for departmental expenses associated with research and education. Charges associated with indirect costs or institutional overhead are not allowed. Defrayal of academic-year salary is not permitted. Funds are normally expended over a period of five years. More details can be found at:

http://www.dreyfus.org/awards/camille_dreyfus_teacher_award.shtml

The sponsor deadline for full proposals is February 10, 2016.

This is a limited competition. Institutions may submit only one (1) Camille Dreyfus nomination annually.

If you are interested in submitting a preproposal please send a statement of interest with a brief abstract (maximum 1 page pdf) via e-mail to limited@unm.edu by **noon, Tuesday, November 17, 2015**. Based on the e-mail responses received, the Limited Competition Management Team may announce a call for preproposals. Please distribute this notice to departments and individuals whom you believe would be interested.

Should you have any questions please feel free to contact us at limited@unm.edu. For help with abstract development please contact Ann-Mary MacLeod at the UNM Foundation (Ann-Mary.MacLeod@unmfund.org, 277-2918).

If you are affiliated with HSC, please contact Corey Ford at 272-6950 for more information.
