Office of the Vice President for Research

Subject: NIH: Nanomaterials Health Implications Research (NHIR): Comprehensive Evaluation of

Interactions between Engineered Nanomaterials and Biological System (U01) (RFA-ES-15-013)

Date: August 19, 2015

Good Morning,

The Office of the Vice President for Research is requesting e-mails of interest for the NIH: Nanomaterials Health Implications Research (NHIR): Comprehensive Evaluation of Interactions between Engineered Nanomaterials and Biological System (U01)" funding opportunity. The NIEHS Nanotechnology Health Implications Research (NHIR) program is being established to gain a better understanding of ENMs-biological interactions to guide development of benign ENMs and support safe and sustainable use of nanotechnology. The sponsor limits the number of proposals per institution to one. See the following link for further details: <a href="http://grants.nih.gov/grants/guide/rfa-files/RFA-ES-15-013.html">http://grants.nih.gov/grants/guide/rfa-files/RFA-ES-15-013.html</a>

If you are interested in submitting a preliminary proposal please send a statement of interest with a brief abstract (maximum 1 page pdf) via e-mail to <a href="mailto:limited@unm.edu">limited@unm.edu</a> by <a href="mailto:noon, Friday, August 28, 2015">noon, Friday, August 28, 2015</a>. Based on the e-mail responses received, the Limited Competition Management Team may announce a call for preproposals. Please distribute this notice to departments and individuals whom you believe would be interested.

An optional letter of intent is due on October 30, 2015. The NIH deadline for full proposals is November 30, 2015.

If you are affiliated with HSC, please contact Corey Ford at 272-6950 for more information.
